

Activ Care

 Ultra Low Adjustable Bed

Supporting the modern, independent lifestyle.

The Activ Care bed combines the best of in-home care, functionality, positioning and low height safety with luxurious and contemporary style for enhanced comfort, care and wellbeing.

Features

- **Ultra Low Height:** Minimum platform height of 195mm reduces falls risk, improving user safety.
- **Customisable Safe Entry/Exit Height:** Programmable single button press ensures perfect bed height to maximise independence.
- **Underbed Clearance:** Provides clear access for patient lifters and overbed tables.
- **Battery Backup:** Provides confidence and maintains independence during power outages.
- **Night Assist:** Luminous underbed halo for safe entry and exit.
- **Illuminated Handset:** Large button interface is intuitive and highly visible at all times.
- **Massage:** Relaxing vibration modes for personalised neck, shoulder and back relief.

Functions

Hi-Lo Functionality: Assists with manual handling and helps to mitigate fall risks.

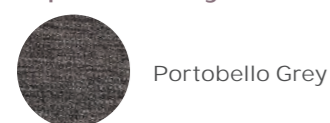

Head Tilt: Relaxes neck muscles, providing optimal support whilst reading or watching TV.

Back Raise: Improves postural support and can ease symptoms of reflux, respiratory conditions, snoring and sleep apnoea.

Auto-Regression in the Backrest: Stops the user sliding down the bed during movement while improving comfort and maximising pressure redistribution.

Clinical Positioning: One touch raises back and legs to alleviate cardiac exertion, improving resting comfort.

Upholstery

Portobello Grey

Leg Raise: Promotes circulation, relieving tired, swollen, fatigued or painful limbs.

Memory Function: Allows the user to set and return to their preferred position at any time with one click of a button.

Zero Gravity: Helps to relax the circulatory system and muscles of the lower back.

Seated Position: Assists with bed entry and exit and upright dining.

Trendelenburg (and Reverse): Can assist care givers when repositioning a user*.

Lockable Castors: Eight heavy duty dual castors.

**Carers should seek advice from a trained Allied Health professional for correct manual handling techniques.*
