

Leo

SOLID, SAFE, SECURE

Safety is a key feature of the Leo, but this does not detract from its stylish and sporty looks. Leo offers users the freedom and confidence to enjoy their essential daily outings and leisure excursions. With high standards of design and safety engineering, the Leo undoubtedly sets a new market standard.

Making Life's Experiences Possible

Yes, you can.®

Leo

The Invacare Leo offers a smooth, safe drive in a scooter that is easy to control and manoeuvre. The Leo intelligent lighting package includes indicators that automatically switch off and a rear brake light for safe driving. In addition to a visual warning for the battery level display, users are also alerted with an audible warning (beep) when the battery needs recharging.

The Leo is a compact mini-scooter that can be easily dismantled for transportation during longer trips or weekend breaks. With a smooth drive and easy manoeuvrability, getting round tight corners in the local shopping centre, museum or leisure complex becomes refreshingly easy. Access to the battery and electronics for maintenance or servicing is much easier with the Leo as only one part needs to be removed.

Features

Users can easily adjust the tiller to suit their needs.

Rear brake lighting warns other people that the scooter is slowing down, thus preventing collisions.

Swivel functionality and sliding rails ensure optimal seating position.

This unique two-step disengaging lever prevents the scooter from accidentally freewheeling.

Tech Specs

| | | | | | | | |
|--|---|--|---|--|---|--|---|
